Market Heartbeat

FOR RESIDENTIAL ACTIVITY IN THE 10-COUNTY AREA

May 2015

The U.S. economy has been pretty even so far this year. Usually when new figures are released, they paint a pretty picture worthy of putting above the fireplace in that purchased new home. Recently, some numbers for the first quarter were adjusted to show a slight contraction in the economy. The initial response from Wall Street was unfavorable, but the correction itself is truly a mere blip. Nobody is predicting that the market will take a sudden turn.

New Listings in the Jackson region increased 4.1 percent to 836. Pending Sales were down 35.4 percent to 350. Inventory levels fell 8.8 percent to 3,206 units.

Prices continued to gain traction. The Median Sales Price increased 6.3 percent to \$170,000. Days on Market was down 13.1 percent to 91 days. Sellers were encouraged as Months Supply of Inventory was down 3.4 percent to 7.5 months.

One interesting effect of a weaker-than-expected economy is that the Federal Reserve does not seem ready to raise short-term interest rates during summer, as some had suggested might happen. New projections indicate that rates will remain the same until September at the earliest. The dominant storylines in housing are decidedly not negative these days. Instead, you're more likely to see top sales and luxury living highlighted than the woes of foreclosures and short sales.

Historical Percent of Original List Price Received

Housing Affordability Index

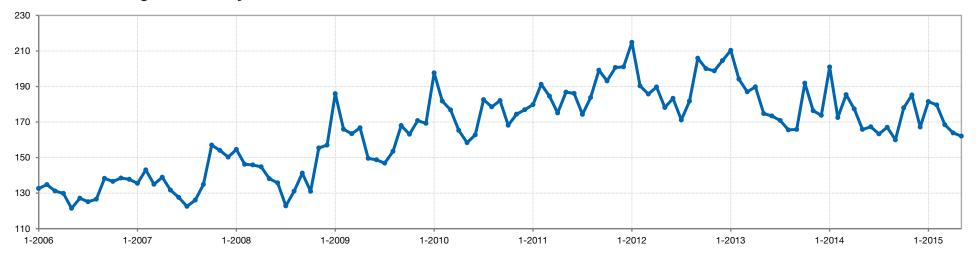

This index measures housing affordability for the region. An index of 120 means the median household income was 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

| Month | Prior Year | Current Year | +/- |
|--------------|---------------|-----------------|-------|
| June | 173 | 167 | -3.5% |
| July | 171 | 163 | -4.4% |
