## November 2019

In November, the Federal Reserve reduced its benchmark rate for the third time this year. This action was widely anticipated by the market. Mortgage rates have remained steady this month and are still down more than 1 percent from last year at this time. Residential new construction activity continues to rise nationally. The U.S. Commerce Department reports that new housing permits rose 5\% in October to a new 12 -year high of 1.46 million units.

New Listings in the Central Mississippi area increased 2.9 percent to 500 . Pending Sales were up 14.8 percent to 427 . Inventory levels fell 17.1 percent to 2,191 units.

Prices were fairly stable. The Median Sales Price decreased 1.7 percent to $\$ 183,750$. Days on Market was down 20.5 percent to 63 days. Sellers were encouraged as Months Supply of Inventory was down 13.7 percent to 4.2 months.

While many economic signs are quite strong, total household debt has been rising for twenty-one consecutive quarters and is now $\$ 1.3$ trillion higher than the previous peak of $\$ 12.68$ trillion in 2008. While delinquency rates remain low across most debt types (including mortgages), higher consumer debt loads can limit future household spending capability and increase risk if the economy slows down.

## Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income was $120 \%$ of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.
